ROLLER TABLES

Roller tables with galvanized legs and steel rollers.

The roller tables can be combined with more of our equipment to a complete assembly line.

COLOURS

7016

Supply table for 3 wheels.
Has a variable gradient of 3-10°

For stable and durable connection
of roller tables.

Roller set with 2 rollers with a drop of 35°, which provides
the perfect ergonomic transition to, for example, the WCL
or the balancing machine in the assembly line.

Extension table 500 is with 4 steel rollers.
The last 2 rollers have a drop of 35° so that the table
provides the perfect ergonomic transition to, for example,
the balancing machine in the assembly line.

Extension table 600 is with 1 set of galvanized legs and
5 pcs. steel rollers. The Extension table can be used in
combination with the inflation stations and other products
in an assembly line.

ROLLENTISCHE

Rollentische mit galvanisierten Stützen und
Stahl Rollen.

Die Rollentische werden mit weiterem Gerät
zu einer kompletten Montagestraße kombiniert.

VEHICLE

MC CAR VAN 4X4

RULLEBORDE

Rulleborde med galvaniserede ben
og stålroller.

Rullebordene kombineres med øvrigt
udstyr til en komplet montagelinje

MAX LOAD

65 KG/143 LBS
